

## Tuesday

On Tuesday morning, the German students went to Store Mosse, a bog. The Swedish students had to join their lessons. We had to go on wood boards through the bog. But sometimes, these boards were a bit slippery and even broken. Thus, it was not that easy to go. Unfortunately, three students dropped and got wet feet. When we arrived the end of the bog, we had a break. The rest of the way back, we had to go through a forest. That was much easier! When we arrived at our bus, we could visit a small museum called Naturum dealing with the animals, plants etc. of this **nature park**. Afterwards, we went to High **Chapperal**, a Wild West Park, in order to meet the Swedes there. There are shops where you can buy clothes from the Wild West or restaurants where you can eat different food. There are some Wild West shows and merry-go-rounds. Besides, you can even try to find gold, go by train or ride a horse. We had to go in groups of three. At the end, we all went inside a souvenir shop and bought souvenirs for us, our families and friends at home. In the evening, we drove back to Varnämo and slept very early because everyone wanted to be awake for the next day in Gothenburg.
