

## Wednesday

On Wednesday at 8 am, all students and teachers taking part in the exchange met each other at Apladalsskola in order to start our bus trip to Gothenburg, the 2<sup>nd</sup> biggest city of Sweden. It took 3 hours.

When we arrived there, we did a one-hour boat-trip on the 'Paddan'. After that, we had free time to visit the city of Gothenburg and to go shopping. In Gothenburg there were many different shops than in Germany and the prizes were a bit higher. It was also very strange to cope with the Swedish crowns.

At 3 pm, we went together to the museum 'Universeum'. It is a museum about nature and exotic animals like different sorts of fish, spiders, etc. In our opinion, it was a bit boring. Besides the weather outside was so warm and wonderful, so in the museum it was really hot.

All day long, we looked forward to visit Liseberg- an adventure park. We bought a whole-day-ticket and could go into the roller coasters and other merry-go-rounds for free. Most of us liked the roller coasters 'Balder, Kanonen and Colorado' best. We stayed for 5 hours in that park and had a lot of fun during that time. Then at about 10 pm we returned to Värnamo.

It was a fantastic day, and we think the BEST DAY!
