

The weekend

On Saturday and Sunday, all students had different plans and spent their days with their host families. But we and 12 other Germans and Swedes met on Saturday morning and went together to a swimming pool in Värnamo. After this we went to a Swedish exchange student's house in order to watch two movies. Later, 4 other persons joined the group and we went to a youth club called "Narvat" where we played billard, tabletennis and FIFA 10 on Ps3. We even watched the Eurovision Song Contest there. At 10 pm everybody went home.

On Sunday we all **slept off**. The same group of Germans and Swedes from Saturday went to a **football court** where we talked and played soccer. After this we went to another Swedish student's house and watched a movie in English with English subtitle. In the evening, all German and Swedish students met in a restaurant where we ate pizza, which tasted very good.
